

Quantum Technologies Ltd

Unlocking atomic energy for human regeneration

CEO & Founder Dr Keryn Johnson PhD MSc BSc – Founded on 18/03/2019

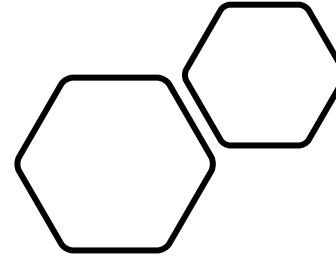

Company Purpose

Putting the power of healing into people's hands

The Pain
50 million people with Bipolar disorder.

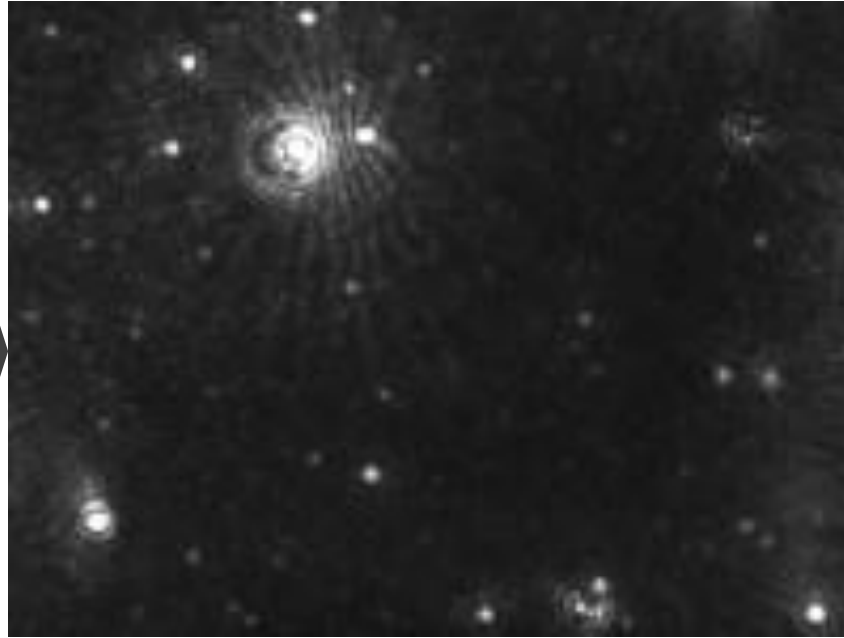

No known mechanism and no known cure

The global **bipolar** disorder **market** is anticipated to reach USD 4.9 billion by 2025, growing at a CAGR of 2.10%

A market ready Solution

Patent protected
– apitherapy
light healing
technology

The mechanism of bipolar has now been discovered.
A topical solution containing mono-atomics has been
developed and shown to help heal the mind

A new science
based on single
atom physics has
been developed to
explain monoatomic
function in the
unconscious mind.
Unlocking time.

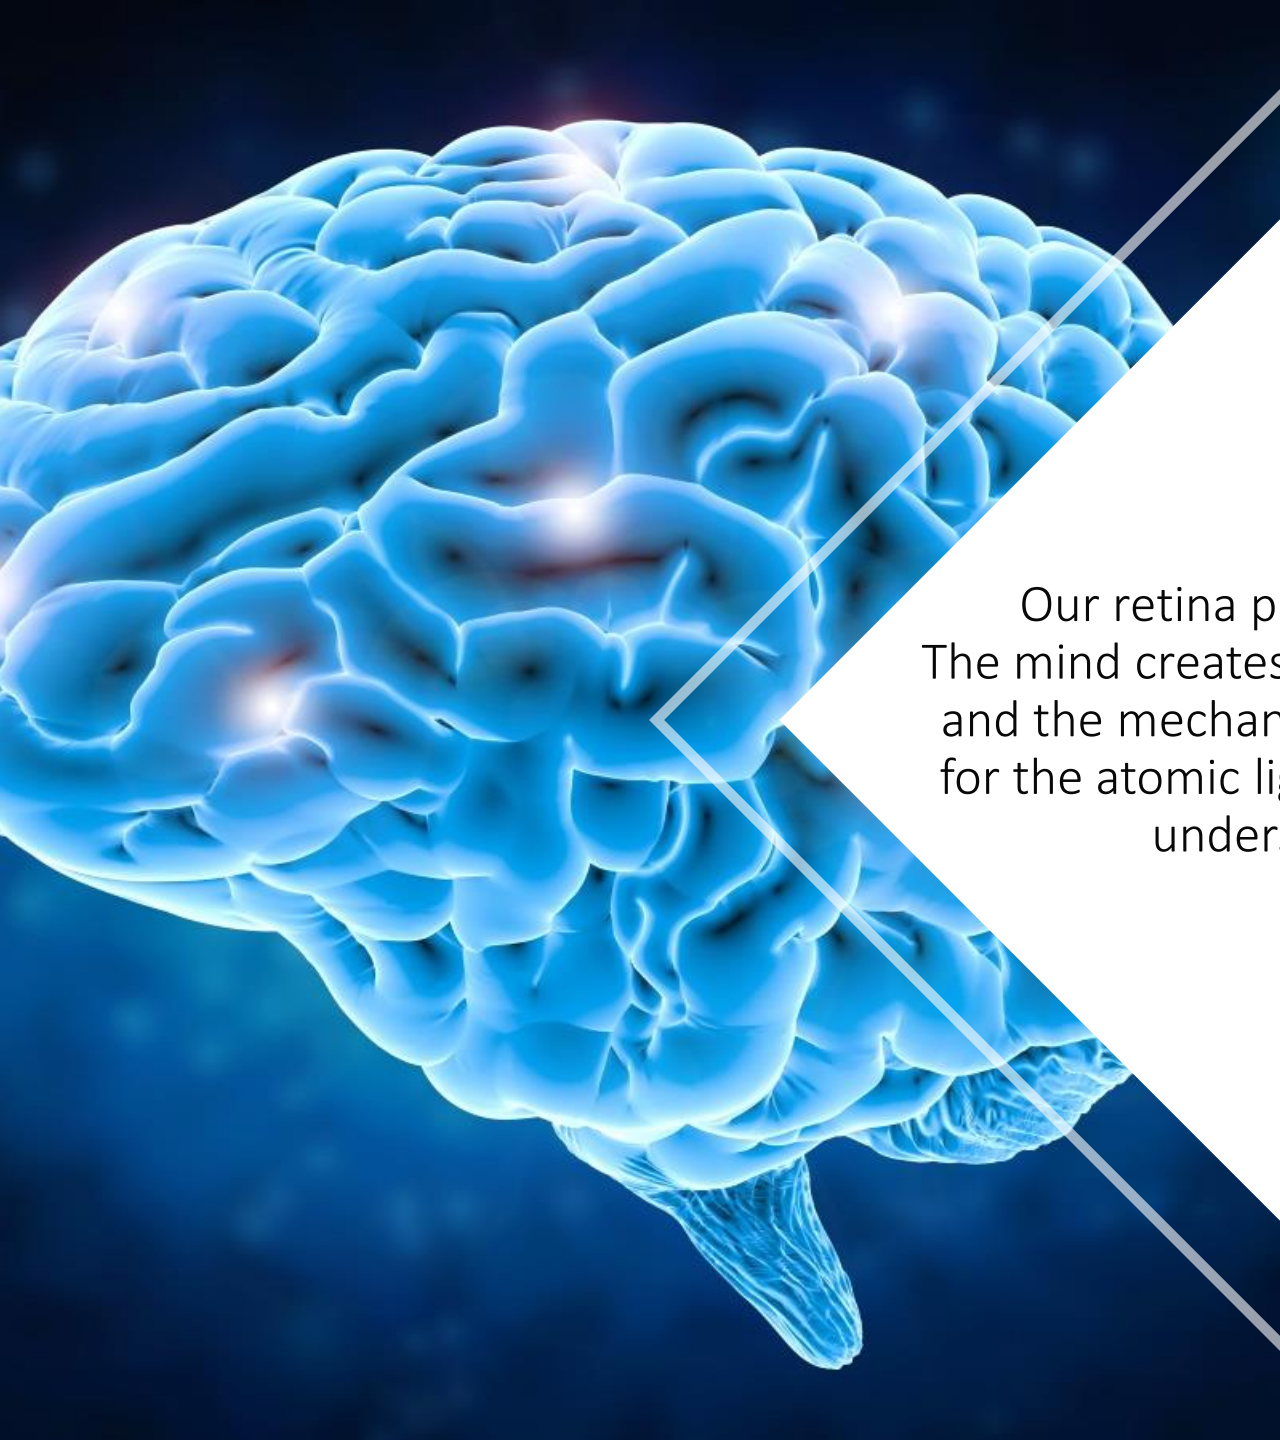

Formulated into a
topical spray that is
bioavailable for
supporting the
physics of the
unconscious mind.

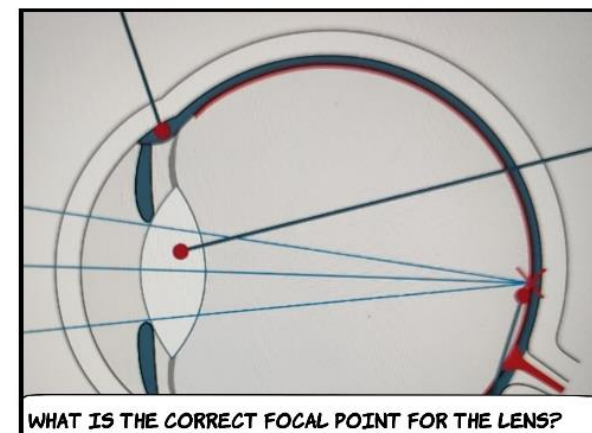

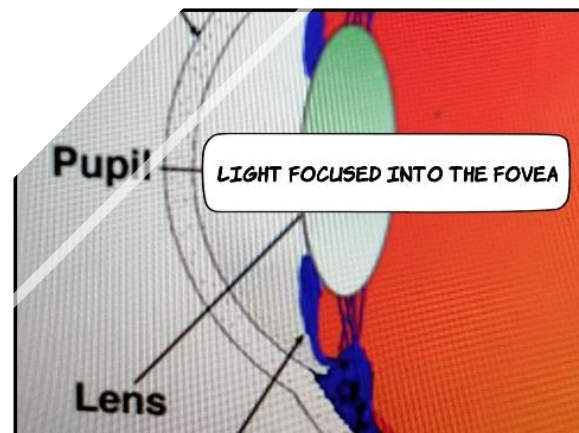

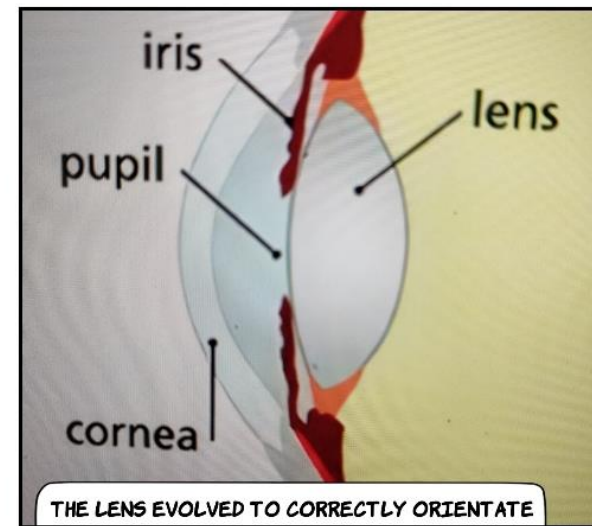

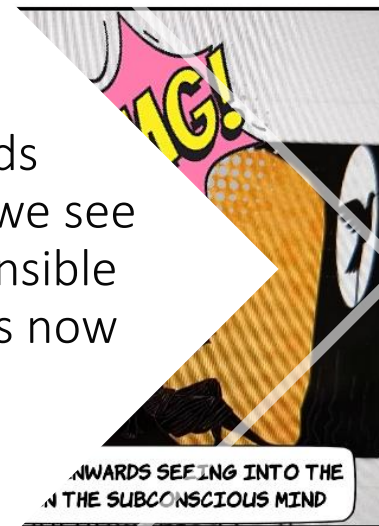

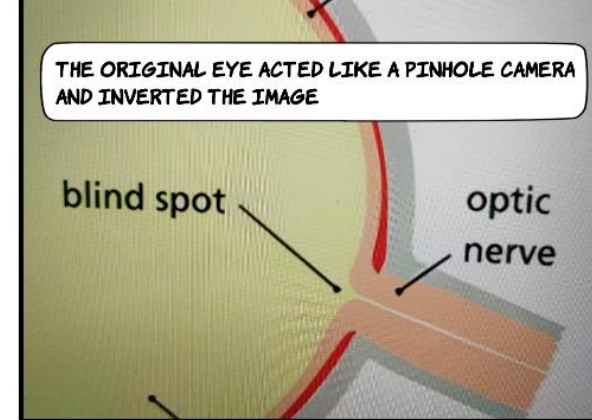

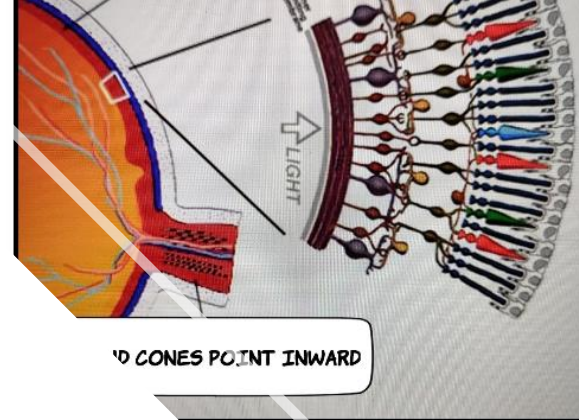

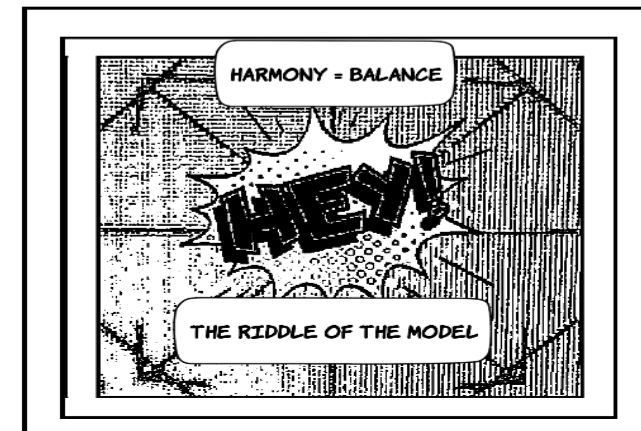

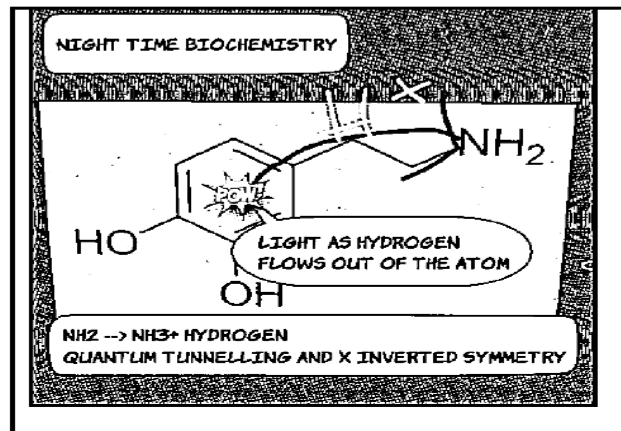

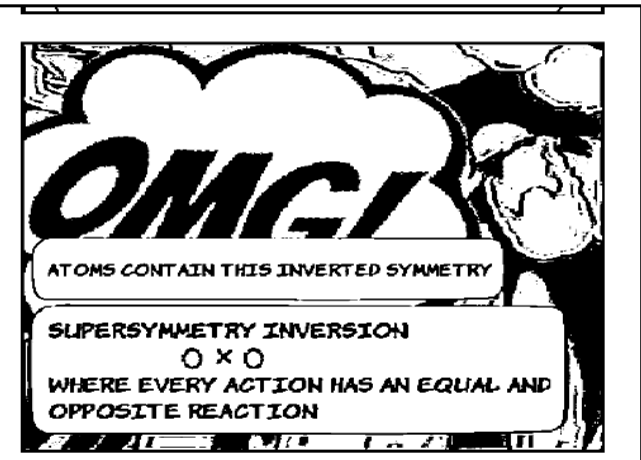

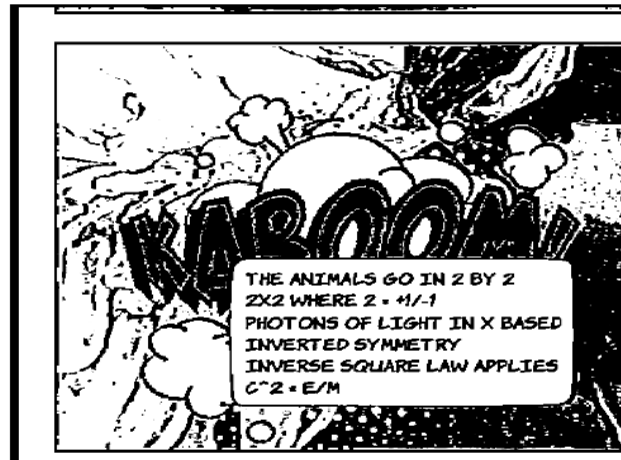

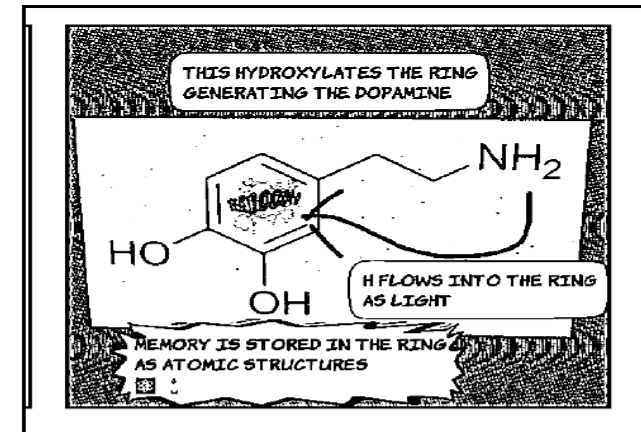

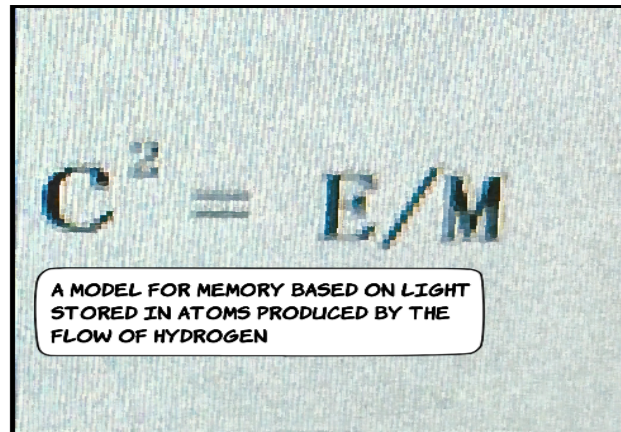

Containing a
biophoton
generating system
for cognitive
enhancement and
regeneration that
supports longevity

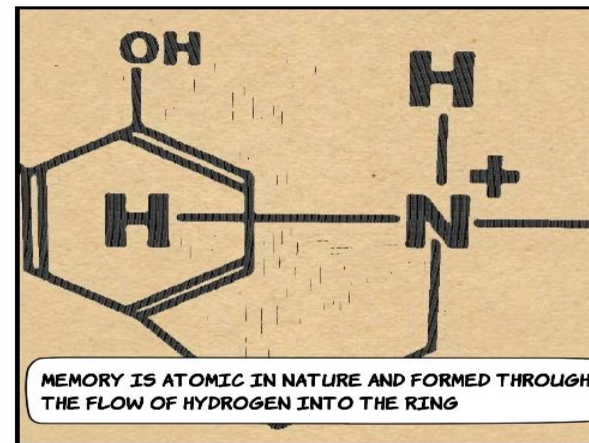

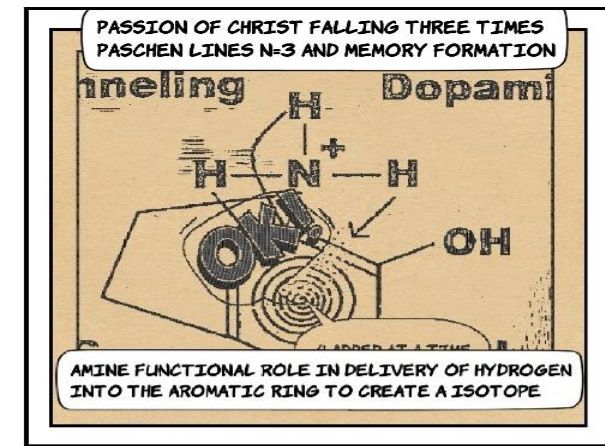

Our retina point inwards
The mind creates the light we see
and the mechanism responsible
for the atomic light show is now
understood.

An isotope singularity
physics model for
memory formation and
recall has been
developed by Quantum
Technologies Ltd
identifies the location
of quantum tunnelling
within
neurotransmitters

The light within the mind is released through atomic decay of isotopes created through hydrogen tunnelling into single atoms housed in the aromatic ring of neurotransmitters

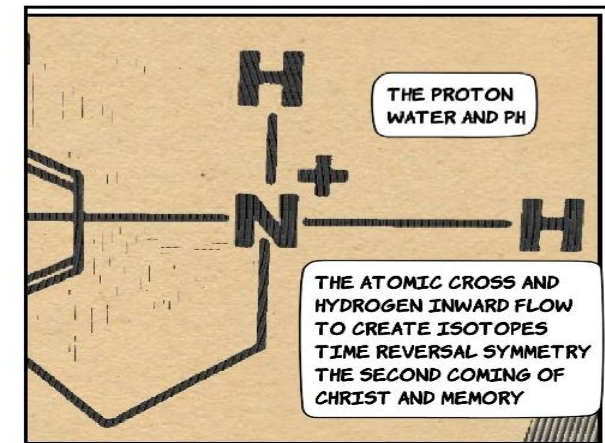

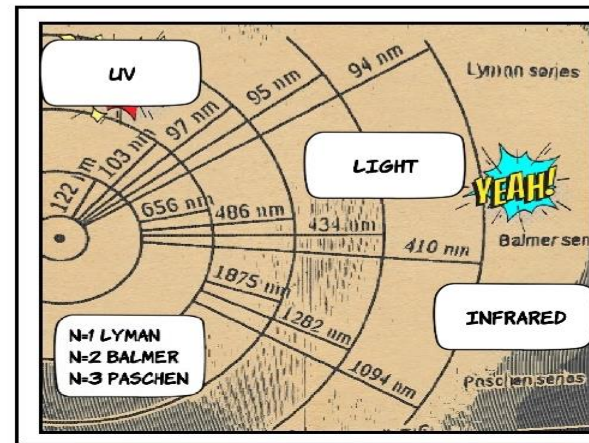

THE ANIMALS GO IN 2 BY 2

$-C^2 = E / -M$

$C^2 = E / M$

$E = Mc^2 \Rightarrow c^2 = E / M$

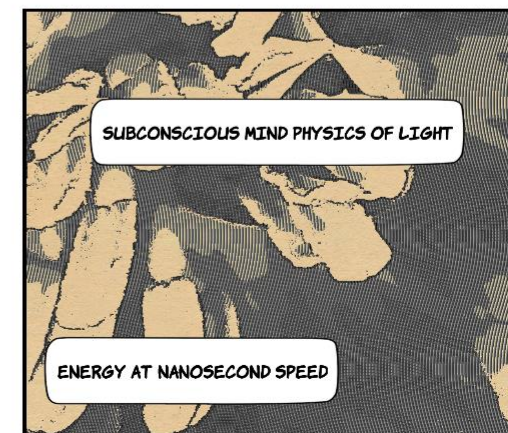

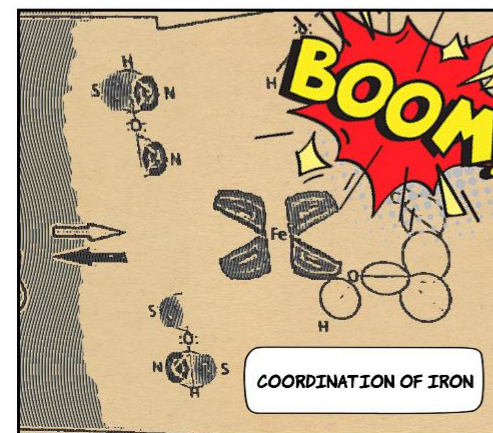

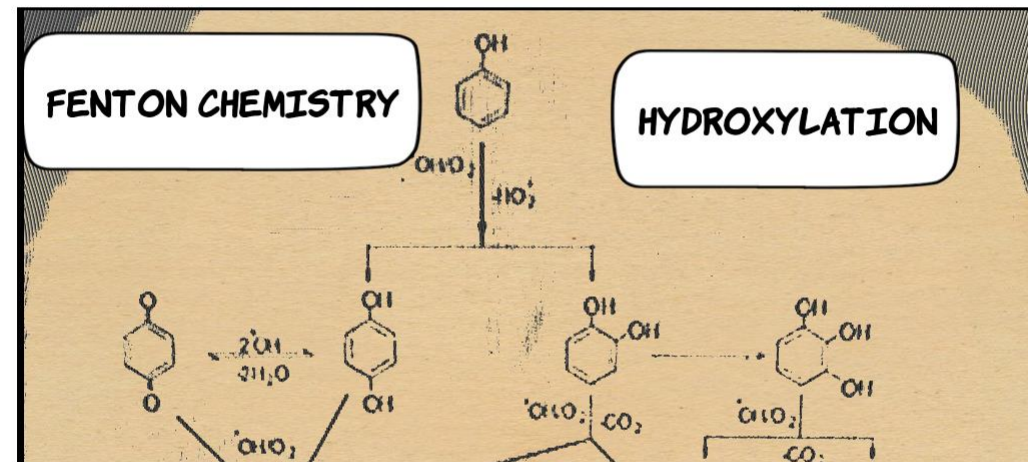

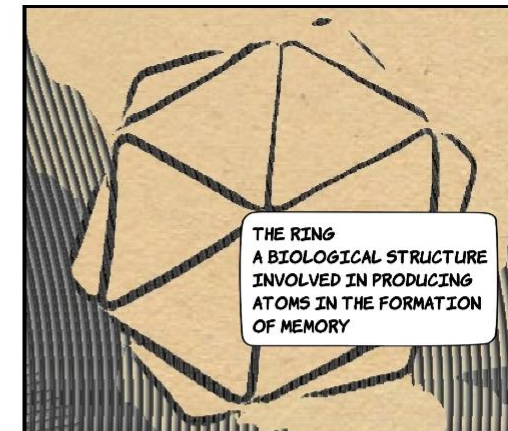

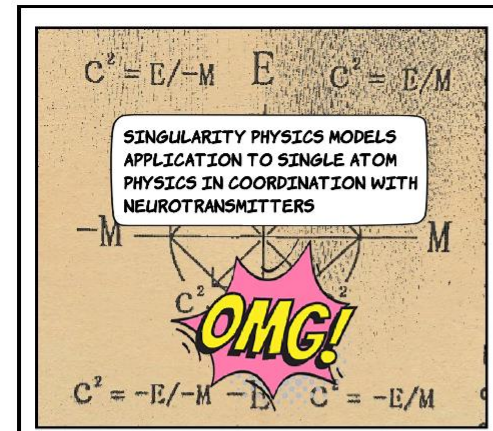

Time and its directional flow is based on isotope physics decay processes going from high energy to low energy

Quantum Technologies Ltd has unlocked time in biology to experience the restoration of memory and spiritual healing connected to the atomic singularity within Lyman vision of a golden sphere of light (atomic nucleus)

Opening the ring structure of neurotransmitters releases the atomic memory stored in the electromagnetic field

This results in the release of trauma and facilitates healing from past trauma

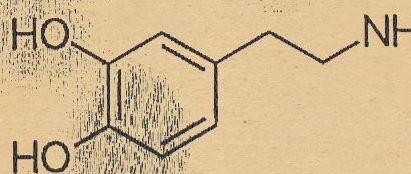

Unlocking light within atoms to restore memory and health in a range of diseases of the mind.

Customer Feedback

- Mum says "something is slowing down or stopping my arthritis". I've had her on two sprays a day, one for each hand for a couple of months. Yeah, and her eyes are so clear & she's mentally sharper. Thanks! I have also been using it and definitely more energy & more connected & less reactive too.
- It helped heal my PTSD. A real benefit for me in starting my new role at work. Thanks.
- I gave a bottle of the headache, muscle and joint spray to my 91-year-old mother who has had chronic neck pain. She felt instant relief. She is applying it daily and said that her neck movement is increasing daily. Betty Bryson

Big markets

Medical technology that restores memory function
and enhances cognition (nootropic properties)

Clinical findings in early onset dementia, PTSD, bipolar and depression plus other indications

Clinical evaluation of memory restoration through a clinical case study in conjunction with the Brain Health Clinic in Christchurch, New Zealand.

Functional improvements observed in patients using the product topically daily.

Manufactured

under non-GMP and exported to Indonesia to test the market. If the market feedback is positive, then Company X is committed to invest capital for setting up a cGMP manufacturing facility in NZ for international export
